10 Useful Places Hosting Informative Podcasts On Linux

EFYTimes News

Tutorials, books, videos and now podcasts, here's yet another way to learn Linux.

Rate this news: ☆☆☆☆☆ (0 Votes)

Saturday, April 19, 2014: Podcasts are often very useful in order to learn about a particular topic. They provide a variety of perspectives on a particular topic and provide information that you may otherwise not find in regular tutorials and books. Here are ten very informative podcasts that you can watch!

1. Ubuntu UK Podcast

This website features podcasts for Ubuntu users and fans. It brings the latest news and information about the Linux-based distro.

2. FLOSS Weekly

This website has everything to do with Free Libre Open Source Software and nothing to do with dental floss!

3. The Linux Action Show

This is a show that covers the newest information in the world of open source and Linux. It is an essential for open source fans.

4. Going Linux

The home page of this website says: *Once you become aware that there is a dependable, secure, capable, and modern computer system that rivals all others in popularity and actual use, you will want to try the Linux operating system on your computer. Perhaps you've been using any member of the Unix/Linux family - Linux, Android, ChromeOS, BSD or even OSX - for quite a while. You are likely looking for new ways to optimize your technology for the way you work. Going Linux is for computer users who just want to use Linux to get things done.*

5. Hacker Public Radio

This website hosts podcasts on "any topic that are of interest to hackers". It urges its listeners to post their own podcasts as well.

6. Linux For The Rest Of Us

This is from the website: *A Linux podcast for anyone even remotely interested in Linux!*

7. Tux Radar Podcast

This is a website that hosts fortnightly podcasts coming from the Linux Format Magazine.

8. Sourcetrunk

This is a monthly podcast that talks about the newest open source software that have been launched.

9. GNU World Order

From the website: GNU World Order is an internet audio show about GNU, Linux, UNIX, and other technical and geeky topics. We release in the free Ogg Vorbis and Speex audio fomats. We are happy that you are here.
